Opinion of the Commission

PER CURIAM:

This case has been presented to the Commission on a joint motion and stipulation for the entry of final judgment. In our Findings of Fact, Nos. 1 through 11, filed this date in this proceeding, we have set forth in detail all the material facts concerning this claim, the terms of its settlement, and its approval by the parties concerned.

A hearing on the proposed settlement was conducted on January 8, 1968, at which the Commission received documentary evidence in support of the settlement and testimony favoring it from representatives of the groups concerned.

Taking into consideration all of the records before the Commission in the subject claim, all of the evidence which has been presented and the statements of counsel, the Commission has found that the proposed settlement is fair and just to the Indian petitioners and to the defendant. The settlement has been explained to all the Indian groups involved and they have indicated their approval of the settlement through the procedures required by the Commission.

Therefore, in conformity with our Findings of Fact and this opinion, a final judgment will be entered.
